South Carolina Museums

The *Directory* is published by the Statewide Services Program of the South Carolina State Museum in cooperation with the South Carolina Federation of Museums. It includes all museums in the state that are currently open to the public.

By definition, a museum is an organized and permanent non-profit institution, essentially educational or aesthetic in purpose, with professional staff, which owns and utilizes tangible objects, cares for them and exhibits them to the public on some regular schedule.

Every effort is made to include accurate and updated information for all of the museums. However, because special activities and staff changes occasionally affect operating hours of smaller institutions, we recommend that visitors verify schedules and admission fees prior to their visit.

For more information about South Carolina's museums and the South Carolina Federation of Museums, contact Nana Farris, Statewide Services Program, South Carolina State Museum, P.O. Box 100107, Columbia, S.C. 29202-3107, (803) 737-4921.
